

Applying Confocal Raman Microspectroscopy (CRMs) in Clinical Skin Research

The proDERM Academy intensive workshop in cooperation with RiverD

This years' educational agenda of 'proDERM Academy' includes an exclusive, one-day workshop dedicated to applying Confocal Raman Microspectroscopy in Clinical Skin Research. It is aimed to educate industry professionals for whom skin studies with CRMs are of interest. Delegates will learn about the basic mechanism of the device, well-known and established parameters and how it may be used to assess important and innovative skin parameters. Special attention will also be given to the topics of 'in vivo penetration' and 'skin moisture' before practical demonstrations will be provided.

This exclusive event is co-hosted by Raman manufacturer River D and limited to a maximum number of 20 delegates. Places are allocated on a first come, first serve basis.

The program includes the following main lectures:

- The RiverD Skin Composition Analyzer | Peter Caspers, River D International
- Quantitative in vivo Analysis of the Dermal Penetration of Topically Applied Products by Raman Spectroscopy | Gerwin Puppels, River D International
- New Insights into Disposition and Uptake of Actives and Excipients by the Skin - the Power of Confocal Raman Spectroscopy | Majella Lane, UCL School of Pharmacy
- Two Different Views on Skin Moisture: The Skin Capacitance and the Confocal Raman Perspective | Stephan Bielfeldt, proDERM Institute
- Practice of in vivo Penetration Measurement with Confocal Raman Spectroscopy | Tomasz Sadowski, proDERM Institute
- Understanding Different Body Sites by in vivo Raman | Paul Pudney, Unilever
- Confocal Raman Spectroscopy on Children | Giorgios Stamatas, J&J

Details of the workshop:

Title:

Applying Confocal Raman Microspectroscopy in Clinical Skin Research -
The proDERM Academy Intensive Workshop in Cooperation with RiverD

Date:

November 7, 2019

Location:

Hamburg | Hotel Madison

Seminar Fee:

The seminar fee is € 690.- plus VAT. This covers the seminar fee including practical demonstration, training material and catering during the seminar.

Early Bird:

Early Bird registrations are accepted until 30.8.2019 and will be granted a € 90.- discount.

Registration:

Visit www.proDERM-academy.com in order to register.

About proDERM Academy:

proDERM Academy is the educational spin-off of the renowned dermatological contract research organization proDERM Institute. The educational program of proDERM Academy includes workshops, educational sessions and seminars for the cosmetic and pharmaceutical industry. Despite the regular events 'Claims Support Seminar' and 'Local Tolerance Seminar', the academy offers workshops related to Statistics and hands-on training courses in dermatology, ophthalmology, hair care and other fields.
